			ACTION: 03 - REINSPECTION REQUIRED	

**MOSQUITO AND VECTOR CONTROL - Poultry Ranch Permit ALL**

**No Violations Cited**

**Overall Inspection Comments**

Ranch is about the same. Had a couple wet spots. They ran out of ravap and cannot get it anymore and back to permerthin. Sabino was asking if we can help in finding something else that might work. I will talk to Jennifer and see if we can do some research and help them out. Heavy larval breeding they have not spot treated today yet he was starting as I was leaving. Adult population is moderate to heavy. Has a couple broken water lines Sabino will fix them today. Ranch needs to continue with the new process. Ranch needs to continue spraying 2x a day and spot treating breeding spots. Ranch needs to continue with removing wet spots and replacing with dry.
