**MOSQUITO AND VECTOR CONTROL - POULTRY RANCH PERMIT ALL**

Based on an inspection this day, the items marked below identify the violation(s) in operation or facilities which must be corrected. The Permittee has the right to a hearing if requested in writing within 15 calendar days of receipt of this notice, to show cause why the permit to operate should not be suspended or revoked.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge of \$104.00/hour.

**Inspection Violations**

No violations cited.

**Overall Inspection Comments**

Inspection found:

Adult fly population light throughout ranch during time of inspection.

Pesticide log recorded routine twice daily adulticide applications and Neproex/IGR applied within last 9 days.

Minimal fly larva found throughout conventional houses.

Observed manure hauler loading straight from environmental house and removing from ranch. No spread manure on drying pad. Small amount of stockpiled manure on pad, dry and non-fly breeding.

Ranch is completing manure clean out of conventional houses. Raw manure is stockpiled in staging area behind houses.

MUST be removed within 5 days.

No active watering system leaks observed.

No violations observed at this time.
