Violation Description:

Not In Compliance

Inspector Comments:

Violation Reference:

Overall Inspection Comments

Inspection found:

Adult fly population moderate on ranch at time of inspection.

Pesticide log recorded use of Neporex 5/4 in houses 11 - 21, and on 4/25 in houses 1 - 10.

Ravap sprayed as an adulticide on 5/15/12.

Chickens removed from houses 1 - 10.

Manure removed from upper end houses.

No active watering system leaks observed.

Spoke w/ Miguel says lime is out and unable to treat wet manure.

Spoke w/ Cirilo he is to treat wet spots that are breeding w/ Ravap, he is also to spray Ravap as adulticide on Saturday,

Monday and Wednesday.

No violations observed.

Recommend not draining water into loading dock area next to egg room due to mosquito breeding in standing water.

Standing water needs to be removed.
